TAFT DEFENDS ACTION OF DEPARTMENT OF JESTICE. Washington. D. C. Feb. 12.—"If the Sherman anti-trust law is enforced in the next administration as it has been in the last four years, the trust question is going to be settled by lawful acquiscence, by the ousiness interests of the country.

So declared president Taft at an adress at a farewell dinner given here to attorney general Wickersham by his associates in the department of justice. The president referred to criticisms which had been made as to the enforcement of the Sherman act in which Mr. Wickersham's administration of the department of justice, and declared that this statute, as it has been construed by the supreme court of the United Status, should be most effective in accomplishing the purposes its framers had in view.

"There is nothing in my administration," said the president, "in which I take such pride as I do in the work of the department of justice in the last four years."

FORT BLISS MOOSE WILL ACT AS HOSTS Fort Bliss Moose will answer the call of the wild and come downtown Saturday night to the club rooms of the El Paso lodge on El Paso street. The fort lodge, No. 1178. of the Loyal Order of Moose, will entertain that night. A program is being arranged for the entertainment of the guests of the soldiers at their fraternal meeting and invitations have been given the members of the El Paso lodge, No. 526, to attend.

AUTO CLUB NEEDS FUNDS FOR WORKING

Members Agree That the Club Has Same Serious Problems to Solve;
Needs Enthusiasm.

El Paso's automobile club has a difficult problem to solve. In whew of important matters coming before the legislature to be fought against, for one thing the bill which it is stated contemplates making every automobile owner subject to the payment of a state license from \$15 to \$25 a year, unless the members of the automobile club manifest more interest in the workings of that club, the handful of members who held a meeting Wednesday night admitted that the club is up against it. It was also admitted that the club is without funds with which to work.

Without the members taking a prop-

that the club is without funds with which to work.

Without the members taking a proper interest in the plans of the club relative to the work of going forward with roads now under way, the repairing of others badly in goed of such, and the plans of carrying out the construction of proposed roads it was stated all would go for naught. Police chief I. N. Davis was praised for the work he did in preparing the automobile bill now before the legislature.

Plans were adopted at the meeting to proceed at once with the repairing of the Husco tanks road, and to that end members of the club will call on judge A. S. J. Eylar to see when the \$2000 appropriated by the county for repairs on that road will be available. When the money is secured the work will start at once.

on that road will be available. When the money is secured the work will start at once.

Automobile dealers of El Paso, who it was stated are using the Canutillo-Deming road, constructed by the automobile club, for which an indebtednass of \$100 was incurred, are asked to make contributions to further carry on the work of road building. These dealers, the members said, are perfectly willing to use the road in order to get the cars they sell to Deming or Silver City, but as yet have not contributed one cent to the club.

Reports made by C. H. Lester to the effect that copies of the Borderland rouse were being changed, showing in several instances a different course than the one marked out on the route, brought up the discussion of having what is known as the official Borderland route copyrighted. Mr. Lester stated that the log of that route would be published in the Blue Book within the next few months.

As the meeting broke up, Phil Young said: "I go not know what is the matter with the members of this club. It seems to me they want the officers to do all the work. Well, they would, if the members would put up the money.

There was not a me round in the 20. Both lads were marvels of aggressiveness. Several times Williams overwhelmed Campi with his rushing tactics and had the San Franciscan nanging on the ropus but Campi's recuperative powers saved him.

In the last round, the Californian rallied, and in a tigerish onsiaught, had the Baltimoran disky, but the spectacular finish could not overcome the long early lead gained by Williams.

Logan Campbell Wins Honors in All Classes of Athletic Competition.

Go away from home to learn the news. While El Paso athletes are winning honors at home an El Paso bey has been making a reputation in the east which has placed him at the top of a list of all around athletes in interscholastic endeavor.

He is Logan Campbell, son of chief engineer J. L. Campbell, son of chief engineer J. L. Campbell, of the El Paso & Southwestern system. Logan is a senior at the Pennsylvania Military nessiemy which is located at Chester, Pa. He has developed to be the champion horseback rider at the military school, holding a medal for his prowess, led the football team last fall at ess, led the football team last fall at quarter, plays a whirlwind basketball game, is a crack rifle shot and plays tennis and fances like a veteran.

Wins Medal for Riding. While he has been winning honors at his school he has been too busy to ble school he has been too busy to write home about his success and it was only last week that his father received a bunch of clippings from the papers telling of Logan's accomplishments. One clipping tells of the winning of the riding medals by Logan Campbell and of his work in mounting and dismounting at the hurdles which was said to have been the feature of the exhibition. At quarterback on the P. M. A team be is given the honor of being the best team general of any of the minor college teams. The press notices credit him with playing a brilliant game of football and say that his fast legs wen many of the games for his school.

Conley never extended himself during the short scrap, and although handicapped by over eight pounds in weight be toyed with the Memphis bruiser. Keller leoked in poor condition while Conley appeared as if he had just arrived from several weeks of training in a road camp.

Keller started the mixup with pretty swings and jake, but this was goon offset by the aggressiveness of the little Italian. The furious rushes of the ex-champion in the second and third rounds, coupled with an occassional swing, sent Keller to his knees, from which he would rise only to be hooked with several short right uppercuts and rapid swings to the kidneys.

Not a seat was left in the house when the first preliminary was called, and every one of the doors was packed with onlockers.

Jockey Spinner met jockey Klein in the curtain raiser and for two rounds these boys carried the battle along at a rapid rate. The heavy punches and quickness of Spinner were too much for Klein, however, and he took the count in the second atanza.

Jockey Murry met jockey McCullough in the semi-windup. Murry was bandleapped by over 12 pounds but by clever feinting and well timed jabs, he forced McCullough to take the count in the third round.
